

Table of Contents

Topics	Remarks
Lab-1: Installation of Virtual Box and Ubuntu	
Lab-2: Introduction to Basic Commands in Linux	
Lab-3: Printing Process ID and Creating Child Process	
Lab 4 Implementation of Process Scheduling algorithms	
Lab-5: Implementation of producer and consumer problem using semaphores	
Lab -6 : Implementation of disk scheduling algorithm in C	
Lab 7: Implementation of Memory Fit algorithm in C	
Lab 8 : Implementation of page replacement algorithm in C	
Lab 9 : Implementation of Bankers algorithm in C
